PUBG BATTLEGROUNDS

Favorite Design elements:

- “Battle Royale” concept
- Every match feels different i.e. unpredictability in the course of the game
- Great details in maps and guns
- Premium gameplay experience
- Classy sound quality of guns and overall game
- High level of competition for surviving till the end
- Realistic movement

- Effects in the game are just amazing
- Different costumes , gun skins ,vehicle skins takes the game to a next level
- Emotes feature provides the player a new way of interaction, trolling and having fun

New possibilities

- Vehicle's movement and physics can be improved
- Hackers ruins other's game and decrease their interest in the game so we need to filter hackers
- Number of Bots should be decreased as bots make the game less competitive
